Summary

Senior Full Stack Developer with 4+ years of experience in **software development**, specializing in **microservices architecture**, **DevOps practices**, and **cross-platform development**. Proven track record in leading projects, building scalable web and mobile applications, and improving performance and deployment efficiency. Adept in **technical leadership**, **system architecture**, and **cloud computing**, with a strong focus on **code quality**, **user experience design**, and **security best practices**

Skills

Frontend Development

React, Javascript, Typescript, D3.js, Redux, Tailwind CSS

Backend Development

Python, Flask, Express, NodeJS

API Development

GraphQL, REST APIs

Database

MongoDB, ChromaDB(Vector), Neo4j(Graph), PostgreSQL

Cloud & Deployment

Kubernetes (K8s) - Helm, Docker, AWS - EC2, AWS - S3, AWS - Lambda, Azure - VM, Azure Devops, Azure Key Vault

CI/CD & DevOps

Jenkins, Azure Pipeline, Continuous Integration, Dynamic application configurations

Other Tools

Hashicorp Vault, Keycloak, Git (version control), Agile Methodologies, Unit/Regression/E2E Testing

Experience

Accenture India Pvt Ltd

Application Development Senior Analyst - Coimbatore, India (Remote)

June 2024 - Present

- AI and LLM Optimization:** Led a PoC to **fine-tune** an LLM using **LoRA**, achieving a **30% boost** in accuracy and contextual relevance—showcasing expertise in **domain-specific model tuning** and performance optimization.
- Advanced Data Visualization & Automation:** Developed an interactive **Knowledge Graph** with D3.js, Neo4j, and **AI agents**, and built an AI-driven **documentation generator**—applying scalable design patterns to enhance **data analysis**, **documentation**, and codebase transparency.
- Client-Centric Development:** Collaborated with clients to define requirements and deliver **custom features**—demonstrating strengths in user experience design, requirements analysis, and effective **cross-functional** communication.

Accenture India Pvt Ltd

Application Development Analyst - Coimbatore, India (Remote)

June 2022 - June 2024

- Led a full migration to Micro Frontend (MFE) architecture** using React, Docker, Kubernetes (Helm), and CI/CD pipelines—**enabling modular deployment, parallel development, and DevOps efficiency** through complete ownership of infrastructure setup and pipeline automation.
- Designed a distributed worker system** leveraging Redis, WebSockets, and Kubernetes Jobs to **efficiently process high-load, resource-intensive tasks**, improving system scalability and responsiveness through performance optimization techniques.**Designed and architected a distributed worker system** using **Redis, WebSockets, and Kubernetes Jobs** to handle resource-intensive tasks concurrently—significantly enhancing system responsiveness and **scalability**, while applying **performance optimization** techniques for high-load processing.
- Enhanced user experience and data visualization** by developing interactive dashboards with Recharts and **collaborating on centralized UI integration**, ensuring **customization, cross-platform compatibility**, and alignment with organizational standards.

Accenture India Pvt Ltd

Application Development Associate - Chennai, India (Remote)

May 2021 - May 2022

- Delivered core features and resolved critical bugs** in collaboration with cross-functional teams—demonstrating **agility, adaptability, and strong debugging skills** in a fast-paced environment.
- Designed secure and scalable backend systems**, including a Python-based middleware microservice integrated with Vault providers, and **implemented RBAC using Keycloak** for multi-tenant identity and access management.
- Boosted system performance and data processing**, achieving a **10x API speedup** with MongoDB aggregations and building a **dynamic ETL pipeline** using JMESPath and regex—showcasing advanced data handling and software design expertise.

Education

M.Kumarasamy College of Engineering

Bachelors of Engineering - Electronics & Communications

GPA - 7.6 | Graduated | May 2021

Projects

All projects can be found at the following link:

<https://www.hari-krishnan.com/#projects>

Certifications

GENAI Practitioner

Accenture | Feb 2024

DevOps Essentials

Accenture | Jan 2022

Awards

Fast Track Promotion

Accenture | May 2024

Awarded for consistently exceeding performance expectations and exhibiting role-readiness ahead of the standard timeline

Inspiring Innovator Award

Accenture | Dec 2023

Accenture Celebrate Excellence winner in FY23 Q4, Accenture

The Extra Mile Award

Accenture | Mar 2023

Accenture Celebrate Excellence winner in FY23 Q1, Accenture

Fast Track Promotion

Accenture | May 2022

Awarded for exhibiting a commendable performance and achieving a 5-star rating through the Tech-Leap
